Scroll next to see our site requirements

WWW.ALAKE.CO.UK

Where ?

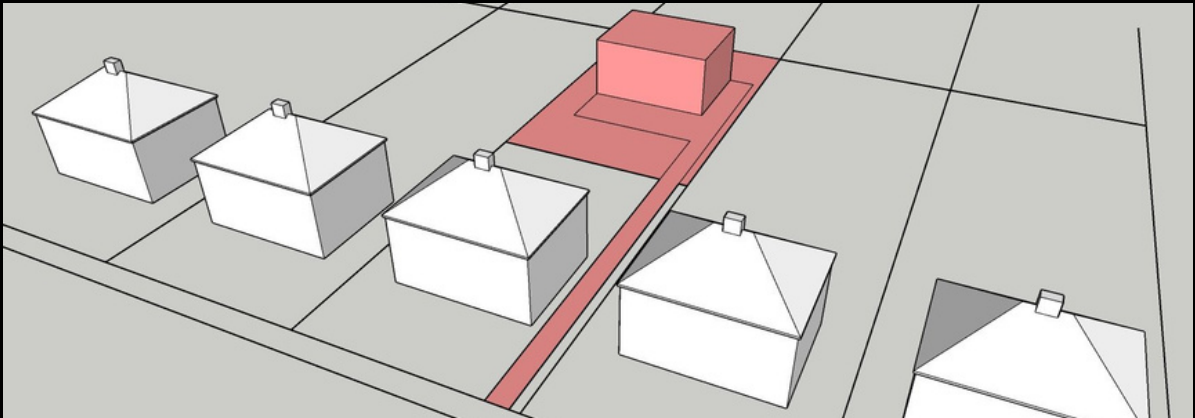

Primarily in and around the M25 but open
to locations between the South East and the
Midlands

Brownfield Sites

A Brownfield Site is a site that has potential for building development that has been previously developed. This includes, car parks, garages, old petrol stations and derelict buildings.

Infill Development Sites

Infill development sites are small gaps between existing residential properties usually within a street frontage. These could be backland sites, large gardens with access to a street, corner sites or gap sites within a street frontage

Airspace

Airspace development is building residential homes on the roof of an existing building.

How we can work with you

You Identify Site

You Take Picture

You Send details and Location to Adewole@alake.co.uk

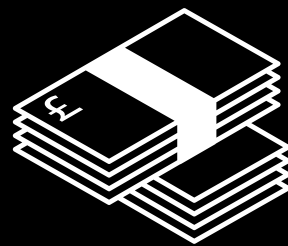

A'lake appraise the site

If site works, A'lake reach out to owner

If A'lake secure a position then...

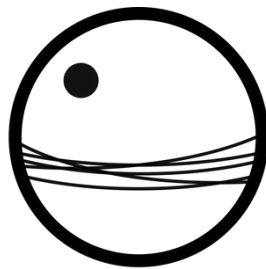

A'lake will pay you a finders fee

EMAIL ADDRESS
